ABOUT US

Third Eye Quality Inspection Services is an independent third-party inspection and quality assurance company providing professional inspection, testing coordination, and certification support to industries. We ensure that products, materials and fabrication activities comply with applicable codes, standards and client specifications.

Our objective is to deliver impartial inspection services that help clients maintain quality, safety and regulatory compliance in their manufacturing and construction projects.

OUR VISION

To become one of India's most trusted inspection and quality assurance partners.

OUR MISSION

Deliver reliable, independent and value-driven inspection services that improve quality, safety and compliance.

OUR Certification

ISO 9001:2015

Certificate of Registration

ISO 9001:2015

This is to Certify that
Quality Management System of

THIRD EYE QUALITY INSPECTION AND SERVICES

3RD FLOOR, OFFICE NO: 310, PESH PLATINUM NEAR THERMAX CHOWK, AKURDI, PIMPRI CHINCHWAD, PUNE - 411019, MAHARASHTRA, INDIA.

has been assessed and found to conform to the requirements of
ISO 9001:2015
for the following scope :

PROVIDING THIRD-PARTY INSPECTION (TPI), QUALITY ASSURANCE, QUALITY CONTROL AND EXPEDITING SERVICES FOR INDUSTRIAL COMPONENTS, BOILERS, PRESSURE VESSELS, PIPING, WELDING, FABRICATION, AND RELATED INDUSTRIAL EQUIPMENT.
IAF CODE : 34

Certificate No : 26EQSY21
Initial Registration Date : 06/11/2026
Date of Expiry : 05/11/2029
1st Surv. Due : 06/10/2027
Issuance Date : 06/11/2026
2nd Surv. Due : 06/10/2028

Director

Assurance Quality Certification LLC

Our Services

We provide inspection and quality assurance services for various industrial sectors including boilers, pressure vessels, piping, structural fabrication and power plant equipment.

Key Services:

Third Party Inspection (TPI)

Stage Inspection as per QAP

Welding Inspection

Dimensional Inspection

Hydro Test Witness

Visual Inspection

Radiography & NDT Coordination

Calibration Verification

Material Identification & Verification

Vendor Inspection

Pre-Dispatch Inspection

Site Inspection

Documentation Review

Expediting Services

Industries Served

Power Plants

Boiler & Pressure Vessel Manufacturing

Oil & Gas

Heavy Engineering

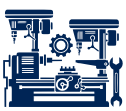

Mining Industry

Infrastructure Projects

Petrochemical Plants

Fabrication Industries

Sugar plants

Cement Plants

Hydro Test

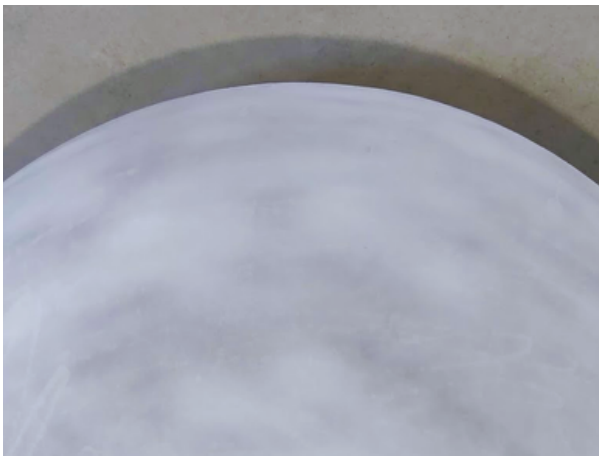

Ensuring pressure integrity, leak-free performance and reliable operation through rigorous hydrostatic testing procedures.

DPT (Dye Penetrant Testing)

Detecting surface cracks, defects, and discontinuities to ensure component quality, integrity and reliable performance.

Dimensions

Accurate dimensional inspection ensures precise fabrication, proper fitment, compliance with specifications and dependable equipment performance.

PMI (Positive Material Identification)

Verifying material composition and grade to ensure quality, specification compliance, traceability and reliable equipment performance.

Thickness Check

Accurate thickness measurement ensures material integrity, structural strength, safety and compliance with specified engineering standards.

MPT (Magnetic Particle Testing)

Detecting surface and near-surface defects in ferromagnetic materials to ensure quality, safety and structural integrity.

UT (Ultrasonic Testing)

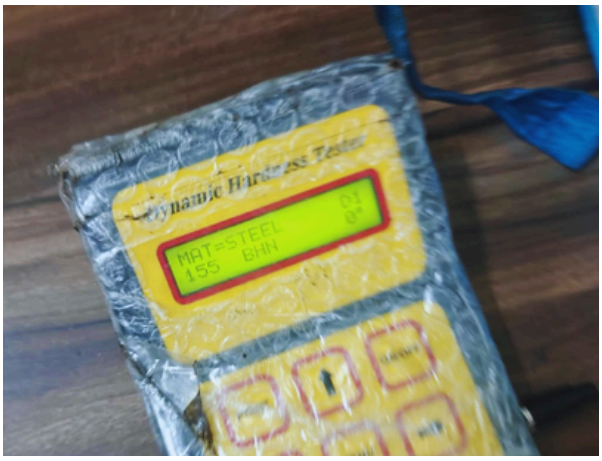

Detecting internal flaws, discontinuities and material defects through ultrasonic waves to ensure quality, safety and reliability.

Hardness Testing

Assessing material hardness to verify strength, durability, wear resistance and compliance with specified engineering requirements.

Weld Visual Inspection (VT)

Weld Visual Inspection (VT) is a fundamental inspection method used to assess weld quality, workmanship, dimensional accuracy, and surface condition. Our qualified inspectors perform systematic visual examination of welds before, during, and after welding to identify visible defects and verify compliance with applicable specifications and acceptance criteria.

OUR COMMITMENT

Delivering trusted inspection services with integrity, accuracy and excellence across every project.
